V3 - Moderate Variation

V4 - Substantial Variation

Color Shade Variation Guide

V1 - Uniform Appearance:

Differences between pieces from the same production run are minimal.

V2 - Slight Variation:

Clearly distinguishable differences in texture and/or pattern within similar colors.

V2 - Moderate Variation:

While the colors present on a single piece of tile will be indicative of the colors to be expected on the other tiles, the amount of colors on each piece may vary significantly.

V2 - Substantial Variation:

Random color differences from tile to tile, so that one tile may have totally different colors from that on other tiles. Thus, the final installation will be unique.
